

# JSX-10 WALK-BEHIND JOINT SAW

The Diamapro 10" Walk-Behind Joint Saw is engineered to be a powerful and mobile saw that outperforms the competition for cutting and cleaning out existing control joints. Producing zero emissions using a powerful electric power head and the integrated 2-inch dust port. This Diamapro Saw produces virtually zero dust while attached to Diamapro SVX dust extractors. Its powerful structure makes this saw perfect for both indoor and outdoor environments, being able to handle any job.

### BENEFITS

- Excellent dust control
- Simple to operate
- Durable powder coated finish
- Quick depth adjustment
- Integrated blade wrench holder
- 2" dust port
- 1/4" Steel frame

### SPECIFICATIONS

Power Requirements:	120 volts 20 amps
Weight:	70 lbs.
Required blade sizes:	8" to 9"
Arbor size:	5/8"
Cutting Depth:	Up to 2.25"
Vacuum Requirement:	256 CFM minimum

# SVX SERIES DUST EXTRACTORS

The SVX series by Diamapro Systems brings the best vacuum technology available to the concrete surface prep and polishing market. The SVX line of singlephase vacuums are extremely reliable, durable, and efficient.

Concrete dust is extremely fine and requires proper filter technology to separate the dust from clean air. All Diamapro SVX units come standard with HEPA filters. Diamapro Systems HEPA filters utilize a membrane that smooths the surface of the filter making it more difficult for dust to stick. This means longer and more efficient run times and filter life.

The SVX line offers 2 different types of vacuum technology: automatic filter cleaning, and manual. Both series offer options in 2 motor and 3 motor units.

# CSX-4.5 CRACK CHASER

The Diamapro Crack Chaser has several key features that makes it the most ideal crack chasing tool on the market. Increasing the productivity by getting the operator off their hands and knees, it also increases the operator's safety. The swiveling rear casters allow the blade to follow the tightest cracks. The large 2-inch dust port makes the Diamapro Crack Chaser virtually dustless. A thick steel frame helps hold the tool to the ground keeping the blades secure.

The Diamapro Crack Chasing Saw is easy to operate offering unmatched dust control while still maintaining superb maneuverability for chasing cracks.

### BENEFITS

- Excellent dust control
- Simple to operate
- Powder coated finish
- Gets you off your hands and knees
- Easy to maneuver
- Patented dust control system
- Blade wrench holder

### SPECIFICATIONS

Power Requirements:	120 volts, 15 amps
Weight:	35 lbs.
Blade sizes:	4.5" maximum
Arbor size:	7/8"
Cutting Depth:	3/4" maximum
Vacuum Requirement:	250 CFM minimum
