## DIAMA-GRIND & SEAL

Acrylic, waterborne, high solids sealer formulated to be used in Grind and Seal applications

### OVERVIEW

Diamapro<sup>®</sup> Diama-Grind & Seal is an acrylic, waterborne, high solids sealer formulated to be used in Grind and Seal applications. Diamapro<sup>®</sup> DiamaGrind & Seal brings out a “wet look” and the natural beauty of a ground concrete surface. The final appearance will have a higher gloss while offering protection from staining and abrasion.

### RECOMMENDED USES

Diamapro<sup>®</sup> Diama-Grind & Seal is suitable for new or existing concrete floors that have been ground to a suitable level. Ideal for use in commercial, residential, or institutional environments.

### FEATURES & BENEFITS

- Dries clear with the glossy “wet look” finish.
- Highlights color variations.
- UV stable non-yellowing formulation.
- Ideal for use on interior surfaces where harsh solvent-based systems cannot be tolerated.
- Seals, protects, and dust-proofs.
- Compatible with most tile and carpet adhesives and can be used to seal other concrete surfaces other than ones that have been ground.
