PRECISION DIAMOND TOOLING

Diamapro Systems™ Precision Diamond Tooling for walk-behind and hand-held grinders

Diamapro Systems™ Precision Diamond Tooling has been carefully selected and tested to ensure excellence in productivity and performance. We have tooling available to fit all major grinder models.

SYSTEMS

PRECISION DIAMOND TOOLING

PRECISION ENGINEERING / FIELD TESTED

Diamapro Systems™ Precision Diamond Tooling combines science with good old fashion concrete grinding and polishing. Diamapro System's™ metallurgists scientifically dial in every bond and diamond concentration to provide the ideal compromise between cutting speed and tooling life.

These diamonds have been extensively tested in the laboratory and in the field to ensure the highest quality performance. During the testing process each tool is run on multiple floors because no two concrete floors are the same. DOI, Gloss, Roughness Average, RSPEC, and Haze are measured at each step

of the polishing process to make sure every tool meets Diamapro System's™ standard of excellence.

We've got you covered for any type of application. Our extensive line of tooling includes PCDs, Bars, Buttons, 6 SEGs, 10 SEGs, Hybrids, and Resins to fit all major walk behind grinders. Check out our comprehensive line of cupwheels; multiple options to attack any job.

Diamond selection is the first step of any concrete grinding or polishing project. Make your work shine. Choose Diamapro Systems™ Precision Diamond Tooling.

Prep to polish, tooling for every machine.

EZ FINISH PAD

DT-BP-27-EZ

- High speed diamond burnishing pad
- Available in any size
- Creates a brilliant EZ Finish on concrete
- Versatile enough to polish "guard" products
- Great for cleaning floors prior to sealing
- Won't "load up" like other diamond pads
- Pad Life for Burnishing 75,000-125,000 sq. ft.
- Diamapro™ makes it EZ to get that desired "Pop" on polished concrete with the EZ Finishing Pad.
