

TVX Series Vacs

TVXA-220 and TVXA-480

From our years of experience in using and promoting traditional manual vacuums, we have been able to provide a number of improvements over our competitors:

- Automatic Filter Cleaning System: suction never stops
- No Sock Filter: (Sock filters are an inefficient way to separate dust as they clog very easily)
- Distribution box on both units
- Plugs are included
- Durable casters and frame
